(1) Child Support Enforcement clients are included for the first time in the CSDB Annual Tables in SFY2004. Of the reported clients, 336 lived outside Washington State in SFY 2004. Use rates for "DSHS Agency Total," "Economic Services Total," and "Child Support" reflect Washington residents only. See Data Notes.

Clients and dollars come from the DSHS, Research and Data Analysis, *Client Services Database*: analytical extract of 4/13/2006. Population is from the Office of Financial Management, 2004 estimates by county.

Client Services Database (CSDB) Annual Reports State Fiscal Year 2004

The data contained in these reports are derived from the Client Services Database (CSDB), maintained by Research and Data Analysis (RDA). The CSDB receives monthly data extracts from each DSHS program and from DSHS payment systems. The CSDB links individual service records and provides a summary of nearly all DSHS services used by each client.

Services provided by each DSHS program are combined into **Report Groups**. A glossary describing the types of services included in each Report Group is available on the internet at: <http://www1.dshs.wa.gov/rda/research/clientdata/2004/default.shtm>, or by clicking on any of the program or report group titles in the reports.

CSDB Annual Reports include data about four age groups: Youth (0-17 yrs.), **Adults** (18-64 yrs.), Seniors (65 yrs. and over), and **All Ages**. All Ages may represent more than the sum of the age groupings because it includes clients for whom age information was not available. CSDB Annual Reports are also available at the State, County, and Legislative District levels of geography, as well as for Washington's 100 largest cities.

Number Served includes all unduplicated clients for a report group and for program totals. Client counts by Report Group will not sum to program totals, as many clients receive services included in more than one Report Group. The **Use Rate** is the percentage of the population receiving DSHS services for the applicable age group and geographic area. **Total Spent** includes direct expenditures for the provision of services to clients, including training costs and payments to contractors (administrative costs are not included). **Per Client** dollars are the average direct expenditures per client.

Questions regarding CSDB Annual Reports or requests for special tabulations should be directed to Fred Fiedler, Ph.D., Chief, Office of Data Analysis, RDA, (360) 902-0746.

Data Notes (June, 2006)

(1) In SFY2004, clients who were part of a Child Support case were reported for the first time in the CSDB Annual Reports. The Division of Child Support (DCS) operates as part of the Economic Services Administration and administers state and federal child support laws. DCS provides services to custodial and non-custodial parents involving paternity establishment, child support order enforcement, and support payment processing.

Over 550,000 Child Support clients receive only child support services -- *and no other services* -- from DSHS. These clients include custodial parents, non-custodial parents, and children. Because these clients were reported for the first time in the SFY2004 CSDB Annual Reports, the total number of clients served by the agency was consequently much higher compared to the SFY2003 Annual Tables. The inclusion of Child Support clients also results in higher Use Rates for DSHS services, especially for Economic Services. Child Support clients were in fact present in the DSHS caseload in previous years but were not reported in the Annual Reports.

Unlike most other DSHS clients, many Child Support clients live outside Washington State. In the state-level CSDB Annual Report pages, footnotes are provided indicating the number of Child Support clients within each age group living outside Washington State during the fiscal year. The total number of out-of-state Child Support clients in FY2004 was 106,874, including 16,985 youth, 86,857 adults, and 336 seniors. In the state-level tables, the Use Rates for "DSHS Agency Total," "Economic Services Total," and "Child Support" are adjusted to include only in-state Child Support clients.

An analysis of the impact of including these additional clients is available on the RDA website at: <http://www1.dshs.wa.gov/rda/research/clientdata/2004/default.shtm>
